

# CLAYTON COUNTY WATER AUTHORITY

## STORMWATER MANAGEMENT PLAN SUBMITTAL PROCEDURES

Effective January 1, 2007

Clayton County Water Authority (CCWA) signed intergovernmental agreements with the following agencies in 2005. The agreements authorize CCWA to carry out stormwater management tasks for the following municipalities including stormwater management plan reviews.

Clayton County      City of Forest Park      City of Jonesboro      City of Lake City  
 City of Lovejoy      City of Morrow      City of Riverdale

This fact sheet describes the procedures for submitting stormwater management plans effective January 1, 2007 for projects located within the jurisdictions of the above municipalities.

If the stormwater management plan for your project has been reviewed by the above municipalities prior to January 1, 2007, then you will be required to submit your revised plans to the above municipalities for review and approval. The local jurisdiction's existing stormwater regulations and requirements will apply.

Stormwater management plans submitted for initial review after January 1, 2007 will be reviewed and approved by CCWA and must meet CCWA's requirements as outlined in the CCWA Stormwater Development Guidelines. The guidelines combine the above municipalities' stormwater management requirements into a consistent set of guidelines to ensure consistencies in stormwater management design throughout Clayton County. The Guidelines is available on the web at <http://www.ccwa1.com/customer.service/developer.information.aspx> or may be purchased by calling the CCWA Stormwater Program at (678) 422-2838. Please carefully review the requirements outlined in the Guidelines as they may be different than the local municipalities' current requirements. The plans may dropped off at or mailed to Clayton County Water Authority, 1600 Battle Creek Road, Morrow, Georgia 30260.

The following are the number of plans required for water, sewer and stormwater:

Documentation	First Submittal	Revised Submittal	Final Submittal
Construction Plan (includes water, sewer and stormwater)	3 Sets	3 Revised Sets + Redlined Sets	6 Sets
Stormwater Management Report	1 Copy	1 Revised Copy + Redlined Copy	3 Copies

If you have any questions regarding the stormwater management plan requirements, please call the CCWA Stormwater Program at (678) 422-2838.
